Rotarians Plant Tree In Honor of Founder

White Oak Is Set On Corner Of Court Square

The Murray Rotary Club planted a white oak tree today at 1:30 on the northeast corner of the court square, in honor of Paul Harris founder of Rotary.

The tree was planted with a simple ceremony. Hall Hood made a few appropriate remarks and ended with the hope that the tree "would grow and flourish." Hunter Love made pictures of the planting.

The event was attended by a good number of Rotarians.

Vern Foy, C. O. Bondurant and A. Carman acted as a committee to select the tree. The tree was moved to the court square by Mason Ross and Hall McCulison.

Plans are made to place a commemorative plaque near the tree at a later date.

The digging of the hole in which the tree was planted elicited much comment from bystanders this morning. Comments ranged all the way from "Are you digging for worms?" to "If you dig long enough you will probably hit gold."

The unofficial committee for digging the hole was composed of Grover Wood James, Harry Sledge, Van Barnett, George Robinson, and Jim Williams.

C. O. Bondurant is president of the organization.

C. O. BONDURANT, President Murray Rotary Club

REV. W. B. CONE PLACED ON BAPT. CHCH. COMMITTEE

LOUISVILLE, Kentucky—Dr. W. B. Pettigrew, Pastor of the Walnut Street Baptist Church, Chairman of the Statewide Evangelistic Committee for Kentucky Baptists, reports that 67 of the 80 district churches have voted to have a simultaneous revival in 1948.

Previously, Kentucky Baptist churches had voted in their annual meeting in Owensboro to have as their theme, "Winning the world in 1948." The method they voted to use was to have the churches in a county or larger unit hold revival meetings at the same time. In some cases there will be as many as 50 churches holding services daily for ten days during the same period.

Rev. James C. Ashbridge, Benton, has been chosen Director for Blood River Association. Other members of the Committee are: Rev. L. B. Riley, Mayfield, and Rev. W. B. Cone, Murray.

Spring Returns Today After Biggest Snowfall

Murray welcomed the sunshine today to melt the biggest snowfall of the season. Around three inches of snow fell Saturday, starting in the morning and continuing in the night. An earlier snowfall this winter was a little under three inches.

All indications were that the most recent cold wave had passed its course. Although the mercury hit 17 degrees last night, it had climbed to 30 by 7:00 o'clock this morning, and continued on the upswing until noon.

The weather man displayed his wares across the country today, drenching South Atlantic states with a heavy rain, dumping snow on the Northern Rockies and teasing the Midwest another teasing taste of Spring.

A wide section of the country was buried under a heavy fall of snow that fell yesterday from Kentucky to Massachusetts. Harrisburg, Pa., snowed out from under eight inches. New York had six inches, giving the city a total of 37.1 inches for the season.

The big metropolis had expected 10 inches of snow but the storm veered out to sea. Nevertheless, it was New York's fourth big snowstorm of the season in addition to a severe ice storm.

Rain fell today from Northern Florida north along the coast as far as North Carolina where it dropped as sleet and made highways hazardous.

Residents of Greenwood, Miss., were cheered by forecasts of clear skies today. They have been besieged by the Yazoo river which went out of its banks last week and stood five feet above the surface of the city today. Only water-

ANTI-COMMUNIST MILITARY AID URGED FOR CHINA

WASHINGTON, Feb. 23 (UP)—House Speaker Joseph W. Martin, Jr., and Sen. Robert A. Taft, R., O., joined today in demands for strong anti-communist military aid for Nationalist China.

The two influential Republicans criticized the administration for concentrating on economic aid in drafting its proposed \$570,000,000 Chinese aid program.

Both the House and the Senate were in session today but were slated to devote much of their time to memorializing George Washington and hearing his farewell address.

Other developments:

Rent Control—Senate debate on rent control was turning into a dispute over whether there really is a housing shortage. Several senators of both parties were mustering evidence to answer a statement by Sen. Harry P. Cain, R., Wash., a foe of rent control, that "no actual" shortage exists. The Senate's pending rent bill would extend controls 14 months beyond February 29, when present laws are scheduled to expire. Because there is no chance for passage of a new bill before then, the House and Senate will approve this week an emergency 30-day extension.

Taxes—The Senate finance committee was called into a closed meeting to begin work on the \$5,500,000,000 income tax reduction bill approved by the House. It is expected to lower the tax slash by a billion or so in an effort to win Democratic votes needed to override an anticipated presidential veto.

Tidelands—Sen. E. H. Moore, R., Okla., said Congress must spell out a clear solution to the Federal-State dispute over Tidelands oil and gas resources. He is chairman of a Senate-House judiciary subcommittee which is considering legislation to give the state's title to controversial submerged coastal lands.

Moore said the Supreme Court did not clearly define authority in its 1947 ruling giving the federal government "paramount interest" in certain portions.

Prices—Sen. John J. Sparkman, D., Ala., urged a government investigation to determine if the steel industry violated anti-trust laws in boosting steel prices.

OBSERVE WASHINGTON'S BIRTHDAY

BECAUSE GEORGE WASHINGTON'S birthday falls on Sunday, Feb. 22, this year, it is observed as a legal holiday Feb. 23. Famed as the first president of the United States, Washington was born at Bridges Creek, Va., in 1732. This picture of him was painted by Gilbert Stuart. Inset is Washington's Mount Vernon home in Virginia, now preserved as an American shrine. (International)

Lynn Grove P.T.A. Has Founders Day Pageant

Founders Day was observed Feb. 18th at the regular meeting of the Lynn Grove P.T.A. in Paducah. Mrs. Crawford McNelly, Mrs. Marvin Parks and Mrs. Joel Crawford were elected as the nominating committee.

Mrs. Truman Young, health chairman, showed the Health Unit received for the "Health Roundup" completed last fall.

Mrs. Canter, announced that, Dads Night Pot Luck Supper and men's ball game, will be held as soon as the weather and road conditions improve.

The Home Ec. Kitchen showed Mrs. Fred Sandefur, Home Ec. in the Home Ec. room, with teacher, in charge was well attended. Each P. T. A. member present gave one or more badly needed utensils to the department. However so many more articles are needed to bring the dept. up to state requirements that the shower will not be over until that goal is reached.

At the class of the pageant, Mrs. Prentice Beaman, played "America" while the assembly contributed to the Founders Day fund. A musical reading, "Mother Mine," was read by Miss Sue Lockhart.

The devotionals was conducted by Mrs. Carolyn Fain. "Love" was the theme of the spiritual reading followed by a well worded prayer.

During the business session, Mrs. Paul Canter, pres. presided. The delegates elected to attend the Spring District Meeting, at Lone Oak, are as follows: Mrs. Tannis Beaman, Mrs. Oils Workman, Mrs. Carolyn Fain, Mrs. Luck Burt, and Mrs. Crawford McNelly. Alternates are: Mrs. Emma Lee Rogers, Mrs. Tremon Farris, Mrs. Rogers, McKenna, Mrs. Harold Smotherman, and Mrs. Bill Hill.

Plans were discussed and voted on to send the President to the

LOUISVILLE WINS RETURN TILT WITH MURRAY

The University of Louisville, bent on obtaining revenge for an earlier 52-55 loss to Murray State, took ample vengeance here Saturday night by a 61-50 score.

Coach Bernart Hickman's Cardinals took an early lead on a basket by Button Combs, and led all the way.

Reagan scored 10 points to bring his four year total to 445, thus eclipsing a mark set by Willard Bagwell in 1933. He also broke the mark of number of field goals scored by an individual player, number of free throws attempted by a player, number of free throws made, number of personal fouls committed, and number of games played.

He did this despite the fact that he has not played up to his usual standard during the current season.

Other Murray seniors who played their last home games included big John Padgett, Odell Phillips, and Kenny Cain.

Big Jack Coleman was the main difference between the two clubs as he scored 13 points and maintained complete mastery of the bankboards. He got invaluable aid from Edward Compton on rebounds and from John Knopf in scoring. Knopf counted 12.

Free throws missed: Murray—Herrold, 2; Cavender, Louisville—Coleman, G. Combs, Compton, Johnson, Borah, Knopf and Borah.

The Tigers, both varsity and B's are fuming, and fretting today following defeats at the hands of Tighman's Tornado Friday night. Lady Luck went visiting that night and left the Bengals stranded, therefore the so-called air-filled leather held no love for the netting for nearly three quarters of the game. If "Old Lady" hadn't visited so long, the Tigers could have won with a comfortable margin.

Saturday night Tighman had little or no trouble at all in subduing the Lone Oaks, so all in all it points up to the fact that Murray Tigers will give Babe Thurston's men a real battle tomorrow night.

GAME POSTPONED
The Brewster-New Concord basketball game scheduled for tonight at New Concord has been postponed due to the illness of Brewster players, officials announced this morning.

FRANKLIN TAKES WIN FROM JUNIOR HIGH BY 38-25

Franklin's Red Devils scored a 38-25 victory over Murray's junior team at Paducah Friday afternoon for their thirteenth win of the season. It closed the campaign of the Demons with a 13-6 record.

Billy Byrd, sturdy little guard, paced the offensive with 15 points, while Knight and Tolley hit seven each for the visitors.

Lineups:
Franklin 38 Pos. Knight 25
C. Byrd F Knight 7
Gamble 8 F Tolley 7
Mathis 2 C Outland
B. Byrd 15 G Jones 1
Brown 6 "G" Coursey

Subs: Franklin—Smithson 2, C. Walker 3, Clark, E. Gilbert 2, Marshall, Leneave, Brayboy, Murray—Lash, Foy 2, McKee 2, Dowdy 6, McCord.

Quarter scores:
Franklin 6 22 32 38
Murray 3 11 16 25

MURRAY STAR CHAPTER OF ORDER OF EASTERN STAR GIVES NOTICE OF MEETING

All members are urged to attend the regular meeting of the Murray Star Chapter 433 O.E.S. which is to be held at 7:15 tomorrow night at the Masonic Hall.

Plans are to be made for the O.E.S. school to be held in Murray next April.

Light—\$4.53.

Incidentally, Mahoney's telephone number is Haverhill 453.

A manufacturing company reported that one of its merchandising experts began his career as a door-to-door salesman, offering "No Peddlers Allowed" signs.

Livestock Market Drop Serious Says Analyst

CHICAGO, Feb. 23. (UP)—Livestock market analyst said today that a drop in livestock values following the big break in the commodity markets, created a "serious situation" for many cattle and hog feeders.

H. M. Conway, writing in the national livestock producers, a trade publication, said that livestock values have gone "abnormally low" for this season of the year.

"But he said, industrial conditions indicate that prices at the nation's stockyards will rise during the spring and summer.

"Sharp comeback in the hog market is expected by early spring," he said. "Pronounced shortages of all meats during late spring and summer should broaden the demand for pork. This should make hog prices relatively favorable as compared with the cost of corn."

The big grain markets, where most retail prices on food are determined, were closed today in commemoration of Washington's Birthday. They closed higher after the short period of trading Saturday and were expected to continue even tomorrow.

The family economics bureau of the Northwestern National Life Insurance Co. reported that the recent slump was only one phase of a trend which has been the price of foods drop sharply since the end of 1946.

The bureau said it made a survey which revealed that poultry, eggs, potatoes, oranges, canned fruit juices, some canned fruit and vegetables, preserves and jellies "have all had little private recessions of their own during the past year."

Manufactured goods also dropped in price, the bureau said. The supply of small radios have over-

Lorraine Burken, driver for Boone Laundry, was injured this morning when the truck he was driving slid in front of the passenger train from Paducah around 9:00 o'clock.

Burken was heading east on Main Street, said that he was unable to stop because of icy pavements. The truck slid onto the tracks in front of the south-bound train which was slowing to a stop at the Murray station.

The front of the engine hit the truck broadside but due to its slow rate of speed did not damage the truck beyond repair. O. B. Boone, Manager of the Boone Laundry, said this afternoon.

The driver was taken to the Houston McDowell Clinic where preliminary examination showed a fractured rib, but he is being kept at the clinic for further observation, the attending physician reported.

Burken said the freight cars parked on the siding on the north side of the road obstructed his vision so that he could not see the oncoming train. He said that he did not see the red lights, at the side of the road, flash a warning of the approaching train.

Burken lives near Almo and has been a driver for the Boone Laundry for a little over a year.

FORTY-NINE DIE LAST MONTH BY TRAFFIC ACCIDENTS

FRANKFORT, Ky., Feb. 23.—Forty-nine persons died in Kentucky traffic accidents last month, figures released by the State Highway Department's Division of Safety showed today.

The traffic toll for January, 1947, was 43, the report said.

Traffic accidents totaled 418 last month and 186 persons were injured.

A portable electric drilling rig, said to be capable of saving \$5,000 in the drilling of a single oil well, has been developed to fit a truck and trailer.

President Truman's council of economic advisors began to study to determine how the boost in steel prices will effect the nation's cost of living. Chairman Edwin G. Nourse and his two colleagues arranged off-the-record conferences with the leaders of the steel, auto and other industries.

At New Haven, Conn., Irving S. Olds, chairman of the board of U. S. Steel Corp., said that government policies since 1939 have multiplied the nation's supply of money three-fold.

"When such an extraordinary monetary inflation can occur in less than 10 years," he said, "the surprising thing to me is that we do not have more price inflation than has actually been experienced up to now."

Since 1939, he said, the sale of government bonds to commercial banks created an additional \$70,000,000,000 in money and credit without the production of goods to match the sum. He said the economic effects of the policy are "not unlike those of a currency printing press."

LOW FORM OF LIFE IS DETECTED ON PLANET MARS

MACDONALD OBSERVATORY. Mt. Locke, Tex., Feb. 18 (UP).—Astronomers said today that their latest study of the planet Mars had provided tentative evidence that life in a primitive form existed there.

Astronomers from the University of Chicago and Texas got what scientists called a "practical closeup" of Mars early today as it whirled to within 63,000,000 miles of the earth. This is the closest it will come to the earth in two years.

Using a war-developed infra-red spectrograph focused through an 82-inch telescope, the astronomers made an exacting study of the planet and came to the conclusion that probably lichen, the hard, moss-like growth found on rocks in the United States, existed there.

Scientists said they observed green areas on the planet that advanced and retreated from the polar ice caps, indicating that the lichen-like plants might be spreading as they grew during the summer months.

Dr. Gerard P. Kuiper, observatory director, said the spectrographic studies also indicated that weather conditions on Mars probably would support such elementary life as lichen.

"If life (on Mars) exists at all, and it seems likely that it does, it must be in a very primitive form," he said.

Kuiper, a 42-year-old scientist, said that the studies indicated that Mars has polar ice caps "composed of water." However, he said the ice caps retreated as much as 100 miles a day, indicating that they are very thin, possibly not more than one-eighth of an inch thick.

He said Mars is now in the calendar phase corresponding to April on Earth. The climate of the planet resembles "earth at an elevation of 50,000 feet," he added.

This probably would support lichen, Kuiper said, "since these plants act like sponges and suck up water vapor present in the air. Rain is not necessary for their existence."

Scientists believe that temperatures on Mars range from a few degrees above freezing to an estimated 80 to 100 degrees below zero, Kuiper said. Lichen has been known to exist in mountain ranges on earth under similar conditions.

The spectrograph through which scientists made their study spreads light out into its component color bands and reveals the composition of the material from which the light is reflected.

The presence of water is indicated by a prominent black light band. Advanced forms of life such as trees, plants and flowers would contain considerable water, and therefore the spectrograph would show the heavy black band. Because the spectrograph failed to show the black band, the scientists conclude that life present on Mars must be of a low order which does not contain much water.

Kuiper said that studies would not be completed for two weeks.

Sewing Takes Dread From Clothing Bill

The increased cost of clothing has not much of its dread for those homemakers in 18 counties in Kentucky who have learned to make their own coats and suits, the most expensive articles in a woman's wardrobe, said Miss Dorothy Threl-

keld, specialist in clothing at the UK College of Agriculture and Home Economics. During the past months 896 wool garments have been made in tailoring schools, where homemakers learned many of the professional tricks employed by tailors in the construction and pressing of suits and coats. The cost averaged about a third that of a comparable ready-made garment, it was said.

Today's Sports Parade

By OSCAR FRALEY
United Press Sports Writer

NEW YORK, Feb. 23 (UP).—United States Olympic hopes were on the upswing today as the young stars started moving in on the established acts to earn a trip to London and the right to keep the Stars and Stripes waving at the victory staff in the international track and field games.

Americans turned in the best times and performances in eight events last year and already the veterans are having their troubles holding their own as the young hopefuls surge to the front.

The tipoff came in the National A.A.U. indoor track and field championships as three of the unexpected — Lorenzo Wright of Wayne, Ill.; Mathis of Urbana, Ill.; and Dave Bolen of Boulder, Colo. — forced the defending champions to take a back seat.

Wright won the broad jump with a leap of 25 feet, 3 3/4 inches, relegating defending champion Herb Douglas to second place. This despite a 26 foot, four inch jump which Wright fouled off by an inch.

Mathis needed a reversed decision to win from defending champ Ed Conwell but got it as he tied the world record of 6.1 in the 60-yard dash. Bolen gave the boys something to think about as he dethroned George Guida in the 600, leaving Jamaicans feared Herb McKenley to come in third.

Another youngster, freshman Phil Thigpen of Seton Hall, bested Olympic hopeful Reggie Pearman in the 1,000, and Bob Richards of the Illinois A.C. showed he was out for London passage by winning the pole vault at 14 feet, 6 inches.

For Harrison Dillard, Baldwin Wallace, hurdles are unbeaten for two years indoors. He still holds promising as he waltzed home in the 60-yard high hurdles. He tied the indoor mark doing it, too.

Meanwhile, NYU's Norm Wasser copped the shot at 33 feet, 8 1/2 inches and John Vislocky-retired the high jump crown at 6'7".

The encouraging feature is that only Dillard and Wright were regarded as U.S. Olympic certainties. They were two of our eight world leaders in 1947.

Dillard was tops in the 110-meter hurdles in 14 seconds, 2/10ths, from the West point, Ohio, toward UCI's Craig Dixon.

Wright turned in his best indoor broad jump, 26 feet, 3 3/4 inches, and with Douglas, best indoor national support.

Richards moves into consideration in the vault, where Guinn Smith of the San Francisco O. C. did the 47 foot 14 inch, 7 3/8 inches, and you'll hear more from Bob Morcom and Earle Meadows.

McKenley topped the 400 meter men at 48.2 but Bolen looks up now and has a 46.9 clocking behind him as further support.

Bill Vesic was last year's best
